

Vitals

A calm line that dips and rises past where it started: a V, a sparkline and a tick — your computer is being watched, and it is fine.

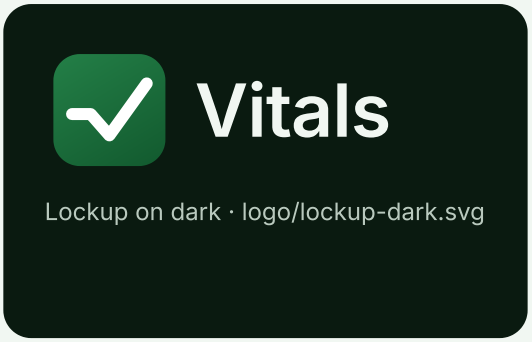

Brand book · version 1.1.0 · source of truth `brand/mark.mjs` · generated by `brand/scripts/kit.mjs`

Logo

The mark is a tile and one line. The lockup adds the outlined Inter SemiBold wordmark, so no surface needs the font. Write the name "Vitals" — capital V, never "VITALS" or "vitals" in prose.

Lockup on light · logo/lockup-light.svg

Lockup on dark · logo/lockup-dark.svg

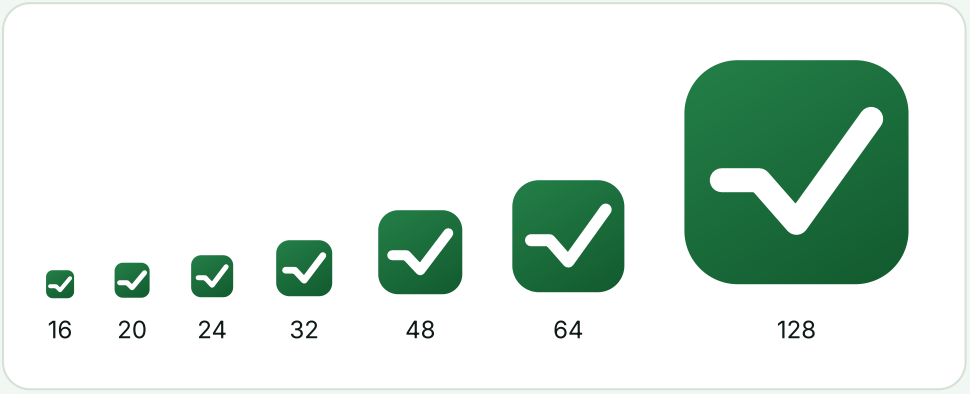

Mark · logo/mark.svg

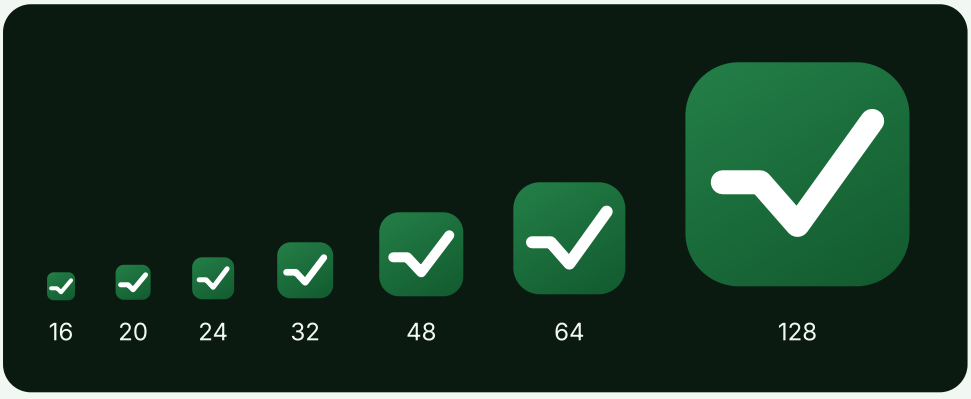

Mono (currentColor) · logo/mark-mono.svg

Optical sizes

One stroke cannot serve 16 px and 512 px. **master** ≥ 64 px (stroke 4.5) · **small** 24–48 px (stroke 5) · **micro** 16–20 px (stroke 6, every node on the pixel grid). Use the file made for the size.

Clear space and minimum size

Keep 6 grid units (⅛ of the mark) clear on every side — one stroke plus a node. Nothing else enters that area: no text, no edge, no other logo. Minimum size is 16 px for the mark (micro variant) and 24 px tall for the lockup.

The hatched band is the clear space at this size (6 of 48 units). Tile 42 × 42 at (3, 3), radius 10, on a 48-unit grid.

Misuse

Recolour the line

✕ Don't

Rotate

Use a heartbeat zig-zag

✕ Don't

Outline the tile

✕ Don't

Place on low-contrast fern

✕ Don't

Colour

Authored in OKLCH; hex is the sRGB fallback, computed from the OKLCH value. Signal lime is for the "all clear" moment on dark only — never text on a light background. Metric colours in the app (CPU, memory, …) are categorical and do not follow the brand.

Fern tile top
`#227c45`
`oklch(0.52 0.12 152)`
Icon tile, gradient start

Fern tile bottom
`#135c30`
`oklch(0.42 0.1 152)`
Icon tile, gradient end; mark on light

UI accent, light
`#22864a`
`oklch(0.55 0.13 152)`
Buttons, focus, toggles (light theme)

UI accent, dark
`#6cb882`
`oklch(0.72 0.11 152)`
Buttons, focus, toggles (dark theme)

Signal lime
`#b2f48c`
`oklch(0.9 0.15 135)`
The "all clear" moment, on dark only

Night
`#0a1a10`
`oklch(0.2 0.03 155)`
Splash, OG, store art, TV

Night raised
`#132a1b`
`oklch(0.26 0.04 155)`
Glow and raised surfaces on night

Contrast — every shipped pairing (WCAG 2.2 AA)

From `brand/contrast-pairs.json`, ratios computed here from the same OKLCH strings. Body text needs 4.5:1; large text and UI parts 3:1. Result: **20 of 20 pass**.

Pair	Foreground	Background	Use	Ratio	Needs	
light: fg.on-accent on accent (primary button)	`#ffffff`	`#22864a`	body	4.57:1	4.5:1	Pass
light: fg.on-accent on accent-hover	`#ffffff`	`#05773b`	body	5.64:1	4.5:1	Pass
light: accent-text on accent-subtle (active nav)	`#006b30`	`#e0f5e5`	body	5.80:1	4.5:1	Pass
light: accent-text on bg-base	`#006b30`	`#f8f8fa`	body	6.27:1	4.5:1	Pass

Pair	Foreground	Background	Use	Ratio	Needs	
light: accent (focus ring, toggle) on bg-raised	#22864a	#ffffff	ui	4.57:1	3:1	Pass
light: accent (focus ring) on bg-inset	#22864a	#e9ebee	ui	3.83:1	3:1	Pass
dark: fg.on-accent on accent (primary button)	#090b0f	#6cb882	body	8.30:1	4.5:1	Pass
dark: fg.on-accent on accent-hover	#090b0f	#7fcc94	body	10.26:1	4.5:1	Pass
dark: accent-text on accent-subtle (active nav)	#86d29b	#14301c	body	8.00:1	4.5:1	Pass
dark: accent-text on bg-base	#86d29b	#0e0f12	body	10.68:1	4.5:1	Pass
dark: accent (focus ring) on bg-raised	#6cb882	#1b1d21	ui	7.13:1	3:1	Pass
icon: white glyph on tile top	#ffffff	#227c45	ui	5.20:1	3:1	Pass
icon: white glyph on tile bottom	#ffffff	#135c30	ui	8.07:1	3:1	Pass
icon: tile on light taskbar	#227c45	#eeeeee	ui	4.50:1	3:1	Pass
icon: tile on dark taskbar (#202020)	#227c45	#202020	ui	3.13:1	3:1	Pass
og/site: fg on brand night	#f1f7f2	#0a1a10	body	16.53:1	4.5:1	Pass
og/site: signal lime on brand night	#b2f48c	#0a1a10	large	13.90:1	3:1	Pass
site light: link accent on white	#10703a	#ffffff	body	6.17:1	4.5:1	Pass
site dark: accent-high on black	#b7eec4	#060f11	body	14.79:1	4.5:1	Pass
site dark: accent on gray-6	#65c281	#0f1d20	body	7.87:1	4.5:1	Pass

Typography

UI: Segoe UI Variable on Windows (system font), Inter Variable as the fallback and for brand art, JetBrains Mono for figures. Tabular numerals always. The wordmark is Inter SemiBold, outlined; tracking −1 %. Inter is licensed under the SIL Open Font Licence 1.1 (`brand/OFL-Inter.txt`).

See what your computer is actually doing.

Vezi ce face de fapt calculatorul tău.

Romanian check: Ă Â Î Ș Ț ă â î ș ț — „ghilimele” « » – — €

Tabular figures: 0123456789 · 12.4 GB · 37 % · 1 024 MB

Romanian uses comma-below ș ț, never cedilla ş ţ. Glyph coverage verified 2026-10-05: pass: ĂÂÎȘȚăâîșț ŞŢşţ „”«»——€.

Motion

The kit uses the app's motion vocabulary (`packages/ui/src/styles/brand.css` , generated from the same source): the tile settles, the line draws, a highlight travels the line while working, the glyph lifts on success, and an alert is a horizontal nudge — shape, not colour. Only transform, opacity and stroke-dashoffset animate.

Logo reveal

The tile settles, the line draws, the tick lifts once: all clear.

`1.6 s, once`

Pulse (idle loop)

A periodic check-in: the glyph lifts and a lime highlight passes once, then rests.

`2.4 s loop`

Thinking

Working: a lime highlight travels the dimmed line. The app uses it for scans and benchmarks.

`1.6 s loop`

Loader

The bare line draws in and out — an inline spinner in currentColor.

`1.6 s loop`

Alert

Three short horizontal nudges, then rest. Readable without colour.

`2.2 s loop`

Timing and easing tokens

Token	Value	Used for
`logo.ease`	`cubic-bezier(0.22, 1, 0.36, 1)`	A long, calm settle: intro, morph, hover
`logo.easeOvershoot`	`cubic-bezier(0.34, 1.56, 0.64, 1)`	The success lift and the pulse

Token	Value	Used for
`logo.sweep`	`cubic-bezier(0.45, 0, 0.55, 1)`	The thinking highlight and the loader
`intro`	900 ms, tile from scale 0.9	Reveal; splash
`thinking`	1600 ms loop, segment 0.28	Scans, benchmarks, loaders
`success`	360 ms	Lift at the end of the reveal; pulse
`error`	180 ms, ±2 units	Alert
`hover`	140 ms, 1 unit lift	Interactive marks
`morph`	380 ms (View Transitions, `vitals-mark`)	Splash mark → title bar

Principles

Calm, not alarmist. Nothing flashes or blinks; the loudest motion is a 2-unit nudge. **One idea per motion.** Each state says exactly one thing. **Reduced motion is a first-class state.** Every file honours `prefers-reduced-motion: reduce` and shows its final frame; "thinking" keeps a static trace over a dimmed line so working is still visible.

Voice and tone

Calm, precise, helpful, fast and light, playful only in moments. Short sentences, everyday words ("memory in use", not "working set"), British spelling in English, correct diacritics in Romanian. An unmeasured number is shown as "—", never "0".

Context	English	Română
Status	All clear. Nothing is slowing your PC down.	Totul e în regulă. Nimic nu îți încetinește PC-ul.
Warning	Memory is nearly full — Chrome is using most.	Memoria e aproape plină — Chrome folosește cea mai mare parte.
Error	Could not read the disk. Try again as admin.	Discul nu a putut fi citit. Încearcă din nou ca admin.
Marketing	See what your computer is actually doing.	Vezi ce face de fapt calculatorul tău.
